

Environmental Commitment

- ✓ 100% of our electricity comes from renewable energy sources.
- ✓ The windows of your rooms are equipped with sensors that stop the heating / air conditioning upon openings to minimize energy waste.
- ✓ Your TVs are equipped with an energy saving mode. This may explain a slower ignition.
- ✓ The water flow from our taps is frequently monitored to avoid possible waste. Most are equipped with eco-foamers.
- ✓ To limit pollution of cleaning products, we change your sheets and towels at your request or every 3 days
- ✓ To reduce packaging waste, we have removed disposable toiletries products in the bathroom. Of course, these remain available at front desk
- ✓ Following a similar logic, products served at breakfast are not served in individual containers whenever possible.
- ✓ We sort all our products (cans, boxes, packaging fruit juice, milk, paper, cardboard, batteries, lamps, glass, plastic packaging, etc ...)
To facilitate this recycling:
 - For your papers, cans, glass bottles and plastic, please use the bedroom recycling bin
 - For other waste, please use the bathroom trash
- ✓ Glass bottles in the minibar are to be recycled by our beverage provider, thank you for not throwing them.
- ✓ We favor environmentally friendly products which carry a legitimate label, as well as products environmentally friendly throughout their life cycle: design, production, distribution, use and end of life value of used product.

We are all invested in this eco-friendly approach and will be happy to tell you how to participate:

- ✓ Please remember to switch off the heating or air-conditioning when you open the window(s)
- ✓ Don't forget to switch off lights when you leave your room
- ✓ During the night, by turning off the television you'll save the equivalent of energy generated to watch 2 movies
- ✓ Make sure taps are switched off and don't leave water running unnecessarily
- ✓ Call the staff if you find any leaks
- ✓ In order to reduce pollution caused by cleaning products, bed linen and towels will be changed upon your request, or every 3 days
- ✓ A basket is provided for used batteries or electronic equipment at the reception
- ✓ To avoid unnecessary waste, single use toiletries are only available at the Front Desk

THANK YOU FOR YOUR HELP!
